DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claimms 1,3,4,6-9,11-20, are rejected under 35 U.S.C. 102(b) as being anticipated by GB 2047081.

The GB patent discloses a floor cleaning tool (10) comprising a support element (14), a power-driven brush roller (22), a pivot lever (54), an adjusting element (40), a biasing spring (72). The elements cooperate such that the roler (24) exerts a third force, the support elements (14,14') exerting a second force where the third force is a direct function of the second force.
